

By public transport from Cerklje na Gorenjskem

We encourage the use of public transport, which is by far the least carbon-intensive mode of travel and is the most effective measure to reduce the destination's carbon footprint due to tourist transport. Tourists, visitors and locals are invited to arrive at the destination by public transport. At the destination, we provide public transport, a bicycle rental system, well-maintained bicycle lanes and hiking trails.

Bus timetable available at:
