

FOR ALL BIRD LOVERS AND BIRD WATCHERS

As for every Slovenian ornithologist, bird observer and researcher, it also applies to you that:

- you represent the interests of nature protection and bird protection before all other interests;
- during your work, do not disturb the birds unnecessarily and not harm them!
- you do not endanger other living beings and nature;
- you do not take the birds from their natural environment and do not keep them in captivity;
- when photographing the birds and nature, you are. Endangered species must not be photographed in their nests!
- you conscientiously record all observations and make sure that the data in the notes does not become old;
- you cooperate with colleagues, help them with their work and take care of good relationships with them.

According to the code of Slovenian ornithologists (adopted at the annual meeting of the DOPPS in Mariboru, 21. 3. 1992)

Nature is only only one – Preserve it!
