

LET'S WRITE OUR GREEN STORY TOGETHER

The destination Cerklje na Gorenjskem is a proud member of the Green Sheme of Slovenian Tourism and a holder of the Slovena Green Destination Bronze label.

Let's retain the natural environment and the landscapes

- Explore Cerklje in Gorenjskem on foot or by bike. There are 8 marked cycling routes and marked hiking trails to Krvavec, Štefanja Gora, Dom na Gospincu, mountain Kriška, mountain Dolga njiva, and Koren mountain.
- Visit the 6 municipalities of the Kamniško-Savinjske Alpe with an organized tourist bus from June to August.
- Discover the breath-taking views and gems of our high plateaus with e-bikes and book a trip with our skilled guides.

Let's protect the environment and the climate

- Water here is clean and drinkable. Fill you bottle with it!
- Take nothing but impressions, leave nothing but the footprints. Therefore, do bring you waste back from your trips and leave it in the appropriate bins at the waste collection points.
- Enjoy nature and, if possible, turn off all electronic and other devices.
- Do not make unnecessary noise in nature and rather listen to the chirping of birds and the gurgling of streams.
- When you meet other visitors in nature, greet them. A good word finds a good place.

Culture and tradition

- Buy from local suppliers because by doing so, you support their development and show respect for their effort.
- Visit the market Cerklje and support local artists and caterers and show respect for our heritage.
- Visit the festival Greeting Autumn with carnations of Gorenjska.

Thank you for respecting our heritage!
